

Please reject the NAB's petition 04-160. I have been an XM subscriber since 12/03. I listen 6 days a week not only to traffic and weather but also NASCAR and Olde Time Radio. When I have my family in the car I appreciate the ability to select a specific channel to fit my entertainment desire at the time. I have also added a portable XM play station for home use. Please protect my rights to have this freedom. Thank you.
